

SECURING YOUR VALUABLES

Hurricane Season Checklist

Hurricane season is approaching; and they have the capacity to bring devastation and destruction, depending on the severity of the storm cell. When a hurricane warning has been issued (meaning a storm is expected to arrive within 36 hours), it is important to secure all your valuables to make sure they stay safe during the hurricane. Pelican™ cases are a great asset to help keep your possessions — whether big or small — safe and sound at all times. Crushproof, airtight, self-equalizing, watertight and buoyant, these cases come in various sizes to suit your needs.

Here is a checklist of the different items that you can and should pack into your Pelican™ cases to ensure no damage is done to them when a hurricane is approaching:

MICRO CASE

- Mobile Phones
- Music player or MP3
- Jewelry
- Credit cards
- Cash
